Initial public Hearing of "Environmental Council Rules of Practice & Procedure," Chapters 200 & 201.

The Environmental Council proposes modifications to Hawaii Administrative Rules, Title 11, Department of Health, Chapter 200 "Environmental Impact Statement Rules" and Chapter 201 "Environmental Council Rules of Practice and Procedure." An initial public hearing will be held April 12th 2006 at 1:30 PM at Leiopapa A Kamehameha (State Office Tower), 235 South Beretania Street, Honolulu, Room # 405. Verbal testimony may be provided at the meeting. All written testimony must be received by the OEQC no later than 12:00 PM April 10th, 2006.

Copies of the rules may be obtained by emailing the OEQC staff contact Nancy Heinrich at nancy.heinrich@doh.hawaii.gov.

Please note that this is an *initial* public hearing, and that additional hearings will be held in the future to obtain community input.

New City Emergency Medical Services Facility

The City & County of Honolulu owns a 14,690 SF parcel located at 1426 Young Street and wants to build a facility for its Emergency Medical Services (EMS) agency. EMS has operated from trailers on the site for several years. The proposed structure is a one-story, 3,200 square-foot facility that will house two ambulance units, offices for the District Chief, a conference room and 10 parking stalls.

A Public Infrastructure Map (PIM) revision application has been filed for this project with the City's Department of Planning & Permitting (DPP). The project will be built in one phase and is expected to cost \$3.0 M based on 2005 estimates. See page 4 for more information.

Repair to Kuhio Highway and Retaining Walls

The Dept. of Transportation intends to repair 900 feet of Kuhio Highway in Lumahai and Wainiha on the north shore of Kaua'i. This section of highway on the makai side is exhibiting erosion damage, cracked pavement and damage to the existing retaining CRM walls. The roadway will be rebuilt using reinforced concrete overlain with asphalt paving, railings of reinforced concrete with rock veneer, and a Keystone retaining wall system for embankment protection. The highway is on the State and National Historic Registers, so railings with rock veneer have been chosen to maintain the historic character. See page 6.

Your guide to the Environmental Review Process

Draft Environmental Assessment

A project or action that may affect the environment cannot be implemented until an Environmental Assessment (EA) is prepared in accordance with Chapter 343, Hawai'i Revised Statutes (HRS). If the lead State or county agency (the *proposing agency* for agency actions, or the *approving agency* for applicant actions) anticipates that the project will have no significant environmental impact, then affected agencies, individuals, and organizations must be consulted and a Draft EA (DEA) is written and public notice is published in this periodic bulletin (see, section 343-3, HRS) known as the *Environmental Notice*. The public has 30 days to comment on the Draft EA from the date of the first notice.

Final Environmental Assessment and Finding of No Significant Impact

After the lead agency reviews the public comments, if it determines that the project will have no significant effect on the environment, then it will prepare a Final EA (FEA) and issue a Finding of No Significant Impact (FONSI) formerly called a *Negative Declaration*. The Final EA must respond to all public comments. An Environmental Impact Statement will not be required and the project may now be implemented. The public has 30 days from the first notice of a FONSI in this periodic bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

When a lead agency decides that a project may have a significant environmental impact, an Environmental Impact Statement (EIS) must be prepared prior to implementing the project. Like the DEA (see *above*), affected agencies, individuals and organizations must be consulted prior to preparation of the final EA (FEA) and issuance of a determination called an EIS preparation notice (EISPEN). (The EA is called *final*, to distinguish it from the draft, *above*). After the FEA is written by the lead agency, and notice of the FEA and EISPEN is published in this periodic bulletin, any agency, group, or individual has 30 days from the first publication of the EISPEN to request to become a consulted party and to make written comments regarding the environmental effects of the proposed action. The public (including an applicant) has 60 days from the first notice of an EISPEN in this periodic bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the FEA and EISPEN (see *above*), the lead agency or private applicant must prepare a Draft Environ-

mental Impact Statement (DEIS) prior to project implementation. This document must completely disclose the likely impacts of a project. Direct, indirect and cumulative impacts must be discussed along with measures proposed to mitigate them. The public has 45 days from the first publication date in this periodic bulletin to comment on a DEIS. The DEIS must respond to comments received during the FEA-EISPEN comment period in a *point-by-point* manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the agency or applicant must prepare a Final EIS (FEIS). The FEIS must respond in a *point-by-point* manner to all comments from the draft stage. Requisite deeper analyses must be included in the FEIS. For applicant projects, the approving agency is authorized to accept the FEIS. For agency project the Governor or the county mayor is the accepting authority. Only after the EIS is accepted may the project be implemented.

Acceptability

If the FEIS is accepted, the law requires that notice of this be published in this periodic bulletin. The public has 60 days from the date of first notice of acceptance to ask a court to vacate the acceptance of an EIS. In the case of applicant actions, the law requires that an approving agency must make a determination on acceptance within thirty-days of receipt of the FEIS or the FEIS is deemed accepted. Also, for applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. It many ways it is similar to Hawai'i's law. Some projects require both a state (or county) and federal EIS and the public comment procedure should be coordinated. Although not required by law, the OEQC publishes NEPA notices in this periodic bulletin to help keep the public informed of important federal actions.

Special Management Area

The Special Management Area (SMA) is along the coastlines of all our islands and development in this area is generally regulated by Chapter 205A, HRS and county ordinance. A special subset of the SMA that is regulated by Chapter 343, HRS is the Shoreline Setback Area. Most development in this area requires a Special Management Permit (SMP). This periodic bulletin posts notice of these SMP applications to encourage public input.

Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback (an area contained between the certified shoreline and a prescribe distance inland (usually 40 feet) from the certified shoreline). The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This periodic bulletin publishes notice from the Department of Land and Natural Resources of both shoreline certification applicants and of final certifications or rejections.

Environmental Council

The Environmental Council is a fifteen-member citizen board appointed by the Governor to advise the State on environmental concerns. The council makes the rules that govern the Environmental Impact Statement process. The agendas of their regular meetings are published on the Internet at <http://www.hawaii.gov/calendar> and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are declared exempt from the environmental review process. These lists are reviewed and approved by the Environmental Council. This periodic bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources (BLNR). Members of the public may intervene in the permit process. Notice of these permit applications is published in this periodic bulletin.

Endangered Species

This periodic bulletin is required by Section 343-3(c), HRS, to publish notice of public comment periods or public hearings for habitat conservation plans (HCP), safe harbor agreements (SHA), or incidental take licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

MARCH 23, 2006

Makaha Watershed Protection Project (HRS 343 FEA-FONSI)

District: Wai'ananae
TMK: (1) 8-4-2-001, 014
Proposing Agency: C & C, Board of Water Supply
 630 S Beretania St., Honolulu, HI 96843
 Contact: Amy Tsuneyoshi (748-5936)

Determination Agency: Same as above.
Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

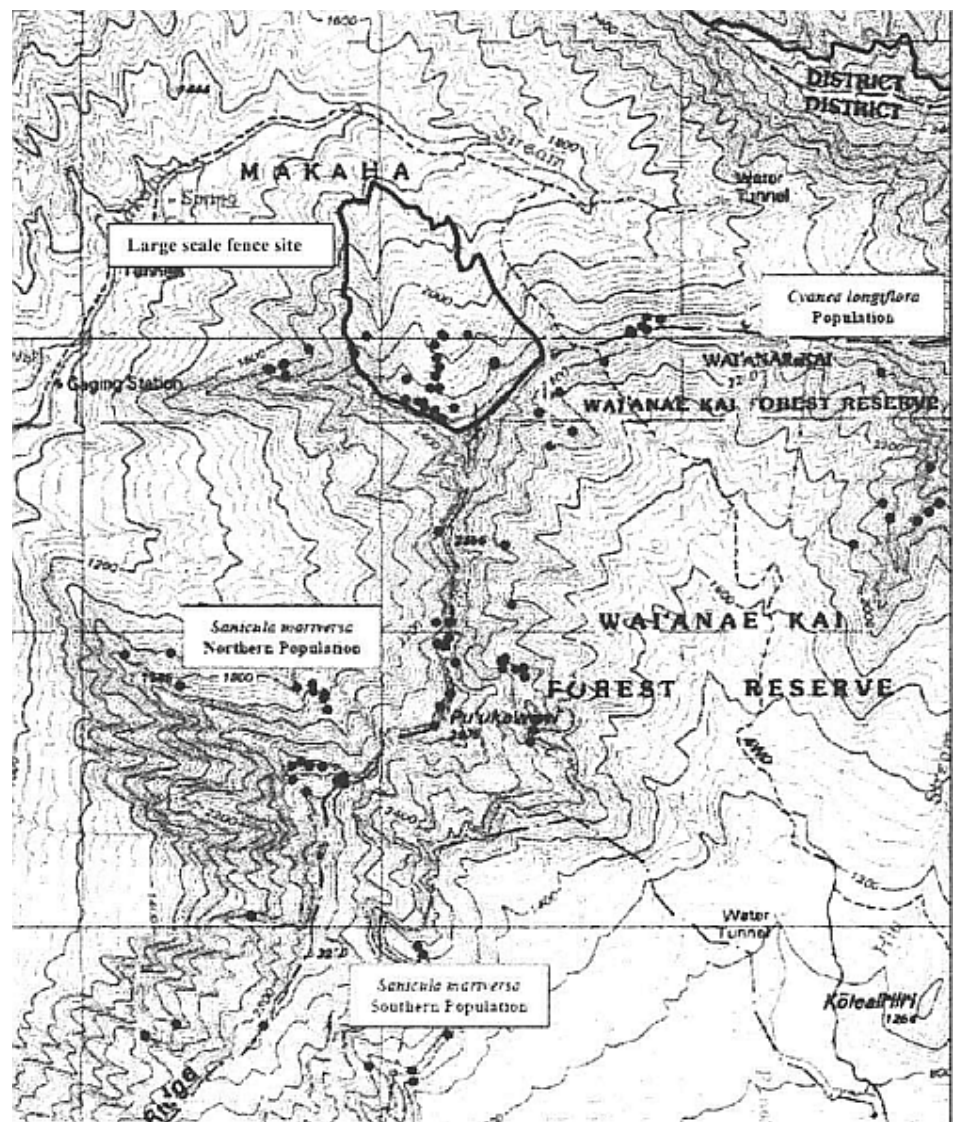

Permits Required: CDUA/Board Permit

Honolulu Board of Water Supply (BWS), in cooperation with United States Army Garrison Hawai'i (Army) proposes to build feral ungulate exclusion fences in Makaha Valley. The project site is identified by portions of TMK Nos. 8-4-02:001 and 014 and covers approximately 100 acres located on Honolulu Board of Water Supply land.

The purpose of the fences is to protect native ecosystems and endangered species from the damaging effects of pigs and goats. Additionally, the exclusion fences are anticipated to have beneficial effects to the Makaha Valley watershed. The proposed project includes the construction of one large fence encompassing approximately 100 acres, and three small enclosures (less than 1 acre each) to protect populations of two endangered plant species. The fence construction is proposed to begin in the spring of 2006 and would take approximately three (3) months to clear the fence line and nine (9) months for fence installation, pending weather conditions, for a total of twelve (12) months to complete.

Construction activities are anticipated to be minimal and short term as the proposed project will not involve major earthmoving or heavy demolition work.

Proposed Makaha Valley Fence Sites

MARCH 23, 2006

Kuhio Highway Retaining Walls at Lumahai & Wainiha, Kaua'i (HRS 343 DEA)

District: Hanalei
TMK: (4) 5-6-03:4, 5-7-03 & 5-7-03:3
Proposing Agency: State Department of Transportation, Highways
869 Punchbowl St., Honolulu, HI 96813
Contact: Steven Kyono (241-3000)

Determination Agency: Same as above.
Consultant: EKNA Services, Inc.
615 Piikoi St., Ste. 300, Honolulu, HI 96814
Contact: Elaine Tamaye (591-8553)

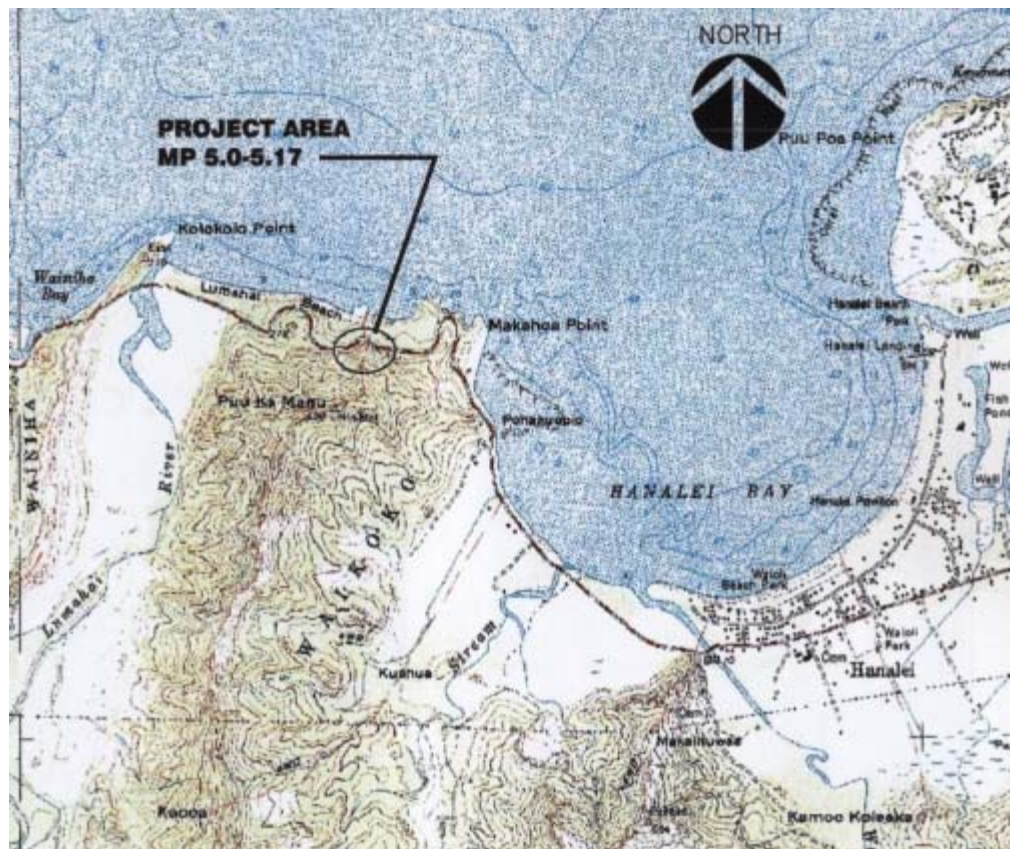

Public Comment Deadline: April 24, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: SMA, Historic Site Review, CDUA

retaining wall system for the embankment protection. The concrete railing with rock veneer is being used to maintain the historic character of the highway in conformance with the desires of the community, while still complying with highway safety requirements. The construction method takes into consideration the weight limitations of the bridges on the Hanalei side of the project reach, and will not require modifications to the existing bridges to increase their weight capacity. The project will not have significant effect on the environment, and therefore a Finding of No Significant Impact is anticipated.

The State of Hawai'i, Department of Transportation, Highways Division intends to undertake repair of approximately 900 feet of Kuhio Highway (Route 560) in the vicinity of Lumahai on the north shore of Kaua'i. Kuhio Highway is the only highway access to the north shore of Kaua'i, and is listed on the State and National registers of Historic Places. The project reach lies at approximate elevation 130-150 feet above mean sea level. This distressed section of the highway exhibits erosion damage of the makai edge of the highway embankment, cracking of the highway pavement and damage to the existing CRM walls. This roadway section will be rebuilt using reinforced concrete overlain with asphalt paving, railings of reinforced concrete with rock veneer, and a Keystone

MARCH 23, 2006

Ochwat Single Family Residence, Haena (HRS 343 FEA-FONSI)

District: Hanalei
TMK: (4) 5-9-02:058
Applicant: Noel & Suzi Ochwat
 865 Balboa Ave., Laguna Beach, CA 92651
 Contact Ben Welborn (639-7978)

Approving Agency: DLNR, Office of Coastal & Conservation Lands
 P.O. Box 915, Honolulu, HI 96813
 Contact: Samuel Lemmo (587-0381)

Consultant: Landmark Consulting Services
 P.O. Box 915, Hanalei, HI 96714
 Contact: Ben Welborn (639-7978)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required: CDUP, SMA Exemption (included), Building Permit, Individual Wastewater System (IWS) Permit

The proposed action is for the construction of a 2,935 square foot single-family residence in an established neighborhood located in Ha'ena on Kaua'i's North Shore. The proposed residence will be a plantation style design elevated on piers to conform to applicable County regulations regarding the National Flood Insurance Program for coastal high hazard areas. The applicant in this action is requesting that the Board of Land and Natural Resources grant approval for a 2 foot height variance for the proposed residence due to the flood zoning characteristics of the parcel. Therefore, if approved as proposed, the highest point of the roof structure would be approximately 27 feet above existing grade and is typical of existing residential development throughout the greater Ha'ena/Wainiha community.

Site Photo

National Environmental Policy Act

MARCH 23, 2006

NOAA Pacific Region Center, O'ahu, Hawai'i

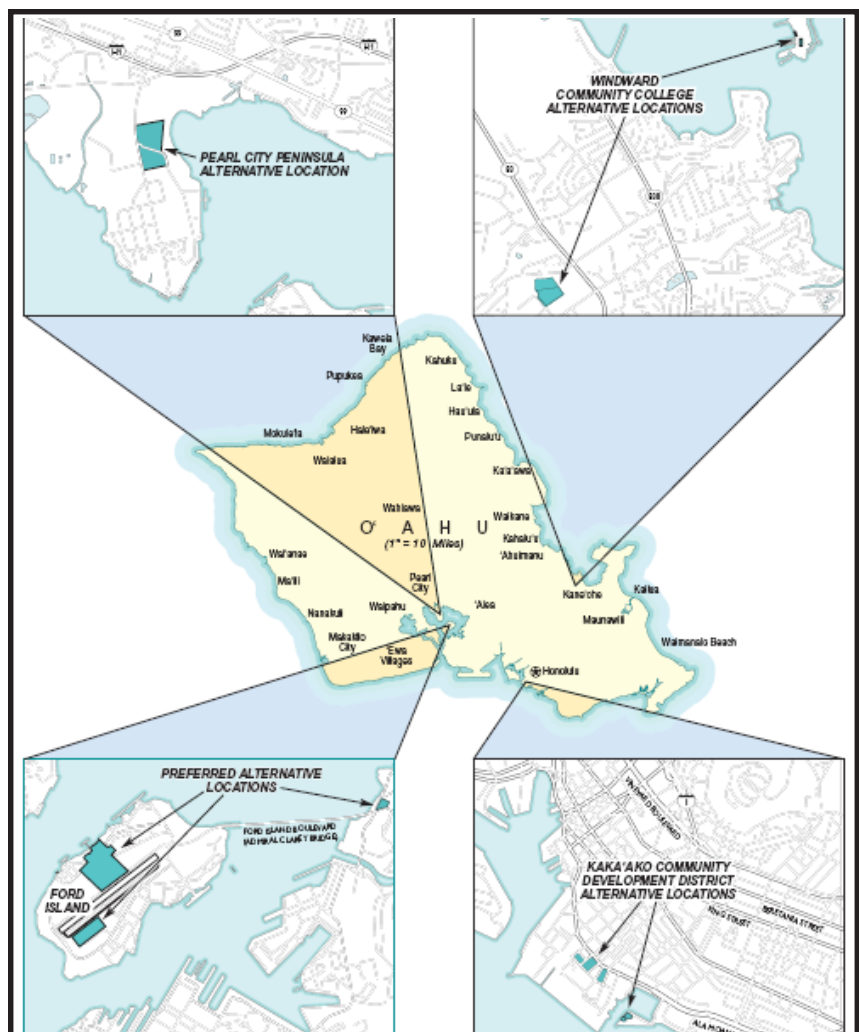

District: 'Ewa
TMK: (1) 1-9-9-001:015 & 1-9-9-003:029
Proposing Agency: National Oceanic & Atmospheric Administration (NOAA)
Contact: Christine Fong (472-1396)

The National Oceanic and Atmospheric Administration (NOAA) has prepared a Draft Environmental Assessment (EA) for the proposed Pacific Region Center (PRC). NOAA proposes to construct a PRC to provide a central location with adequate and permanent administrative, laboratory, and support facilities for NOAA's Line Offices (LOs) on O'ahu, Hawai'i. NOAA has identified Ford Island, O'ahu, Hawai'i as the Preferred Alternative location for implementation of the Proposed Action. In addition, three other locations on O'ahu were evaluated as alternative locations in the EA (see figure).

The purpose of the Proposed Action is to provide a central location with adequate and permanent administrative, laboratory, and support facilities for NOAA's LOs. NOAA's LOs are currently located at 12 different locations on O'ahu, Hawai'i. These facilities are overcrowded, have insufficient meeting space, leaking roofs and windows, unhygienic restrooms, and poorly ventilated laboratories. Business opportunities are limited due to inappropriate facilities, lack of space, and separation of NOAA LO locations on O'ahu. NOAA is a tenant in many commercial buildings on O'ahu and is therefore subject to landlord conditions and market rents. NOAA needs a permanent location with adequate facilities in order to support their programs, provide business opportunities for their LOs, and redirect financial resources towards programs and staffing.

The Preferred Alternative has the potential to have an adverse effect on the historic character of the United States Naval Base, Pearl Harbor National Historic Landmark. Formal consultation regarding historic properties is being conducted (conclusion of consultation is pending). Under the Proposed Action, construction activities would be of temporary duration, best management practices would be implemented, and the facilities would incorporate design requirements to obtain Leadership in Energy and Environmental Design certification at the Gold Level (a voluntary stan-

dards and certification program that defines high-performance green buildings). No significant impacts are anticipated. A copy of the Draft EA addressing this Proposed Action may be obtained from: Naval Facilities Engineering Command, Pacific, 258 Makalapa Drive, Suite 100, Pearl Harbor, Hawai'i 96860-3134 (Attention: Mrs. Christine Fong), telephone: (808) 472-1396, email: christine.fong@navy.mil. In addition, copies of the Draft EA have been placed in the following libraries for public review: Aiea Public Library, Salt Lake-Moanalua Public Library, Pearl City Public Library, Kane'ohe Public Library, Windward Community College Library, and the Hawai'i State Library. Comments may be sent to Mrs. Christine Fong at the contact information provided above. The 30-day public comment period ends on Monday, 24 April 2006.

National Environmental Policy Act

MARCH 23, 2006

Homeland Defense Fighter Alert Facility, Hickam Air Force Base (NEPA-DSEA)

District: 'Ewa
TMK: (1) 1-9-4-012-010
Proposing Agency: Commander, 15th Airlift Wing
15th Civil Engineer Squadron, Environmental
Flight, 15 CES/CEVR, 75 H Street, Building 1202,
Hickam AFB, HI 96853-5233
Contact: Dawn Lleces (533-3366)

Accepting Authority: Commander, 15th Airlift Wing
15th Civil Engineer Squadron, Environmental
Flight, 15 CES/CEVR, 75 H Street, Building 1202,
Hickam AFB, HI 96853-5233

Comment
Deadline: April 7, 2006

The 15th Airlift Wing (AW) at Hickam Air Force Base (AFB), O'ahu, Hawai'i proposes to demolish the existing fighter alert facility and construct a new Homeland Defense Fighter Alert Facility. Pursuant to the Council on Environmental Quality regulations (40 Code of Federal Regulations Parts 1500 – 1508) implementing the National Environmental Policy Act, the Commander of the 15th AW has prepared a Draft Supplemental Environmental Assessment (SEA) to the existing Programmatic Environmental Assessment (February 2002).

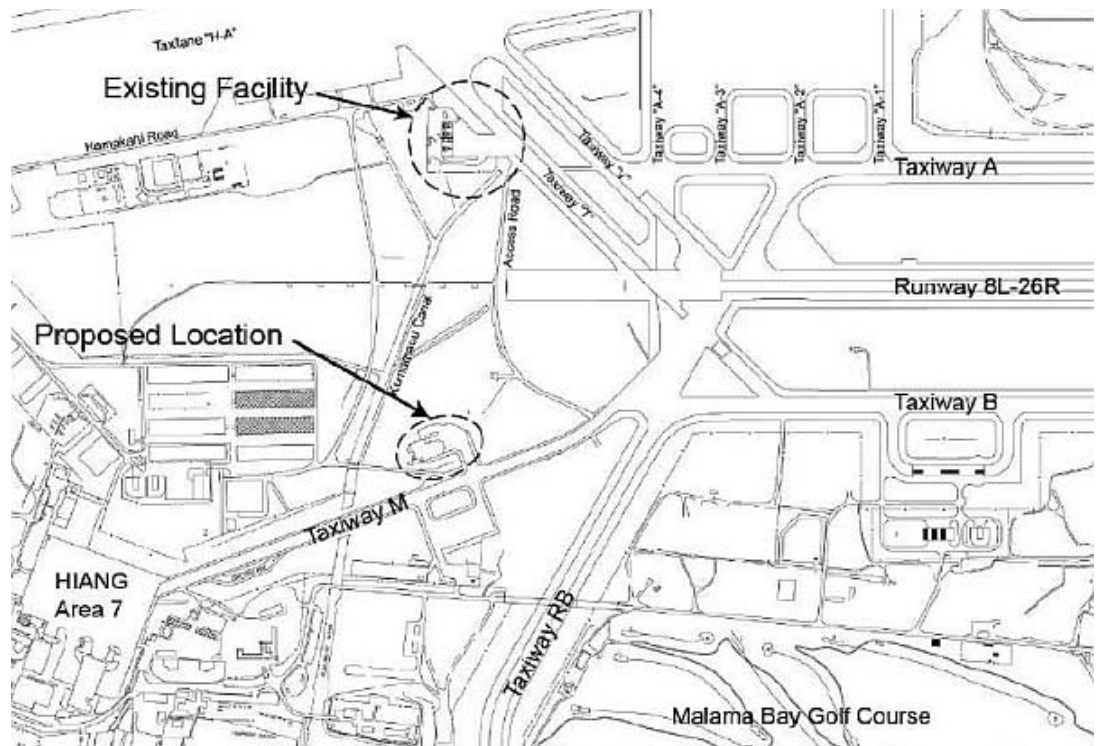

North American Aerospace Defense Command (NORAD) requires alert sites throughout the United States to support Air Sovereignty Alert/Air Defense and Operation NOBLE EAGLE operations. Hickam AFB is designated as one such fighter alert site.

The existing fighter alert facility was originally constructed in 1958, but was modified in the 1960s and again in

1984. The existing facility operates under strict regulations primarily due to its proximity to the airfield. The facility lacks proper siting, safety requirements and crew housing protection and operates under numerous waivers. Further analysis of the existing facility discovered major shortfalls in meeting other new permanent alert site template requirements. The existing facility has been determined not to be a historic resource, but the Air Force will coordinate with the State Historic Preservation Division prior to project implementation.

The review period for the Draft SEA will begin on March 8, 2006 and end on April 7, 2006. Copies of the Draft SEA will be available for review at the following libraries: Hickam Air Force Base Library, 990 Mills Blvd., Building 595, Hickam AFB, HI 96853-5316, Salt Lake Moanalua Public Library, 3225 Salt Lake Blvd, Honolulu, HI, 96818, the Hawai'i State Library, 478 South King Street, Honolulu, HI, 96813 and Hamilton Library, UH Manoa, 2550 McCarthy Mall, Honolulu, HI 96822.

Comments on the Draft SEA received during the 30 day public comment period will be considered in preparing the Final SEA.

Notice Corrections

MARCH 23, 2006

Kalaeloa Artificial Reef Map Correction

It was brought to our attention that we inadvertently printed the wrong map location for this project. The correct site location map is shown below.

Conservation District Notices

Conservation District Use Permit

Persons interested in commenting on the following Conservation District Use Application (Department Permit) must submit comments to the Department of Land and Natural Resources. Also, anyone interested in receiving notification of determination on Conservation District Use Applications (Department Permits) must submit requests to DLNR that include the following information:

1. Name and address of the requestor.
2. The permit for which the requestor would like to receive notice, notice of determination; and
3. The date the notice was initially published in the Environmental Notice.

Both comments and requests for notification of determinations must be submitted to DLNR within thirty days from the initial date that the notice was published in the Environmental Notice. Please send comments and requests to:

State of Hawai'i, Department of Land and Natural Resources, Office of Conservation and Coastal Lands,
1151 Punchbowl Street, Room 131, Honolulu, Hawai'i 96813

While DLNR will make every effort to notify those interested in the subject CDUA, it is not obligated to notify any person not strictly complying with the above requirements. For more information please contact Michael Cain at 587-0048.

Art Smith Landscaping

Federal Consistency Reviews

The Hawai'i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai'i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai'i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana'i & Moloka'i: 468-4644 x72878, Kaua'i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai'i: 974-4000 x72878. For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to: Office of Planning, Department of Business, Economic Development and Tourism, P.O. Box 2359, Honolulu, Hawai'i 96804 or, fax comments to the Hawai'i CZM Program at 587-2899.

(1) Kane'ohē Bay Residential Pier, O'ahu

Applicant: Jeff Tsuzuki, 533-2300
Federal Action: Federal Permit
Federal Agency: U.S. Army Corps of Engineers
Location: 44-237 Mikiola Drive, Kane'ohē, O'ahu
TMK: (1) 4-4-18: 80
CZM Contact: John Nakagawa, 587-2878
Proposed Action:

Construct a new pier for private residential use in Kane'ohē Bay. The pier is proposed to abut an existing seawall and extend seaward 35 feet with a 6-foot width and a 12-foot wide deck at the seaward end. It will be supported by eight pre-cast 12-inch diameter cylindrical concrete pilings submerged about 2 feet below the sea floor.

Comments Due: April 6, 2006

(2) Launiupoko Shore Protection Project, Maui

Federal Action: Federal Agency Activity
Federal Agency: U.S. Army Corps of Engineers
Contact: Harold Nakaoka, 438-0021
Location: Northwest end of Launiupoko Wayside Park, seaward shoulder of Honoapi'ilani Highway at Launiupoko, Maui
TMK: (2) 4-7-1: 17
CZM Contact: John Nakagawa, 587-2878
Proposed Action:

Construct shoreline protection revetments at two severely eroded shoreline reaches, totaling 600 linear feet, along Honoapi'ilani Highway at Launiupoko, Maui. The proposal calls for constructing two sloped (1.0 vertical on 2.0 horizontal) rubble-mound revetments with under layer of 50 to 150 pound stones over plastic filter cloth geotextile and a single layer of fitted 1,000 to 2,000 pound armor stones. The State of Hawai'i Dept of Transportation Highways Division is the state sponsor for this project.

Comments Due: April 6, 2006

Environmental Council Notices

MARCH 23, 2006

April 12, 2006, Meetings at Various Times in Leiopapa A Kamehameha

The Environmental Council of the Department of Health and its various standing and ad hoc committees are scheduled to meet on Wednesday, April 12, 2006, at various times and in various rooms in Leiopapa A Kamehameha, located at 235 South Beretania Street, Honolulu, O'ahu. For more information, please call the Office of Environmental Quality Control at (808) 586-4185. To be placed on an electronic mail notification list of Environmental Council meetings, please send an electronic mail to Leslie Segundo, Environmental Health Specialist, Office of Environmental Quality Control at ehs001oeqc@doh.hawaii.gov. The meeting notices and agenda of the Environmental Council are also available on the State's Calendar Meeting Announcements Internet Website at the following Uniform Resource Locator (URL):

http://www.ehawaii.gov.org/serv/eventcal?PF=hic&Clist=81&_action=View+Calendar.

Federal Notices

Foreign Trade Zone Expansion in Kailua-Kona

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the State of Hawai'i requesting authority to expand FTZ 9 to include a site in Kailua-Kona on the Island of Hawai'i. FTZ 9 was approved on February 15, 1965 and currently consists of eight sites: Honolulu Harbor, Campbell Industrial Park, Mililani Technology Park, Maui Research and Technology Park, Kihei Hilo Industrial Park, Honolulu International Airport, Sand Island, Aolele Street, O'ahu, Airport Industrial complex, O'ahu, and the Hawai'i Convention Center. The applicant is now requesting authority to expand the zone to include 870 acres at the Natural Energy Laboratory of Hawai'i Authority (NELHA) in Kailua-Kona.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions Via Express/Package Delivery Services: Foreign-Trade Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th St., NW., Washington, DC 20005; or

2. Submissions Via the U.S. Postal Service: Foreign-Trade Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave., NW., Washington, DC 20230. The closing period for their receipt is **April 25, 2006**. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 10, 2006).

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at the first address listed above, and at the U.S. Department of Commerce Export Assistance Center, 521 Ala Moana Blvd, Room 214, Honolulu, HI 96813. (See 71 FR, 9518, Feb. 24, 2006)

Pollution Control Permit Applications

Department of Health Permits
